

SHE IMPACTS

There are absolutely no limits to what women can achieve.

Together, we are changing the face of the financial industry.

Inspiring women to inspire women. With more than 30% of financial advisors being female, your drive to achieve financial success for your clients, families and yourself does not go unnoticed!

We recognize the gap in the financial services industry to do more in encouraging women to join the profession. Ash Brokerage answers this call with She Impacts, an evergreen community of passionate financial professionals with a focus on female advisors.

We offer a unique platform and panel of peers that serves to educate, motivate and empower advisors to guide their clients with life insurance, annuities, long-term care, disability and Medicare insurance solutions. When you join the She Impacts community, you'll have access to:

- An exclusive in-person event focused on expanding your expertise and forging lasting connections
- Quarterly community calls with industry leaders
- A monthly newsletter that delivers valuable content right to your inbox
- A hub of materials exploring key concepts for continuous learning
- Advisor spotlights where you can learn about your peers and share your own success story

Ash Brokerage believes in connecting exceptional women in the financial services industry to create a community where ideas can be shared, best practices adopted and participants motivated by one another to enrich their practices.

No matter the need, we give financial professionals the tools and, more importantly, the people they need to secure their client's future. Whether you're a seasoned advisor, or a planner looking for new ideas, you're in the right place.
